14. The question of shifting the Soap factory to more roomy & suitable premises seems to require early consideration. If the factory has to be moved from the present buildings, the room it is now in will have to be expanded, & the output increased, & the present favourable market conditions taken advantage of.

15. Does Patrick's place is for sale? Why not we go in for it? I believe it would be an admirable site for the Soap factory.

16. A report will be got from the Dir. P&C

6 From the Dir of Ind[illegible]

D 2 — 327/30-31 dt 30.4.31

States that the building of messrs Petrie Hay & Son has been purchased by the Bank of Udypore, who require for it a price between Rs 40,000 to Rs 50,000; that it is not in his opinion worth while to purchase it for the Soap Factory, and suggests that a building may be constructed near the Porcelain Factory for locating the Soap factory & requests that he may be permitted to send up detailed plans & estimates.

2 3 The enquiry was made (whether the premises of messrs. Petrie Hay & Son was suitable for the Soap factory) as per orders of the Dewan. The concerned file has been separately submitted with the budget estimates of Industrial concerns — capital grants.

2 4 The question of Shifting the Soap factory from its present premises was discussed at the meeting with the Dir. of 2k on 30th April 1930. A decision has been arrived at regarding the housing of labour employed in the factory. But the locality & labour &

2 5 orders are solicited & as to the locality whereat the houses for the labourers are intended to be built and that to which the factory has to be shifted.

Sd/-
9.5.31

2 6 After the question of site for the factory and for the housing of labour is settled, the other questions viz acquisition of site & preparation

NOTE—Contn. Sheet

of housing Scheme will be taken up if appd.

General and Revenue Secretariat D & C. File No. 164 of 1930.

Serial No.

30 The present location of the Soap Factory is unsatisfactory. The Work of this Factory is expanding and a suitable building for it is an urgent need. For reasons stated by the Dir we need not think of acquiring the Petrie Hay & Sons' Ground and building. This acquisition will cost about Rs 50000. We have our own land close to the Porcelain Factory and the idea of building a suitable structure for the Soap Factory close to the on it Porcelain Factory may be approved. The Dir may be asked to have plans & estimates prepared & sent for approval. As settled at the last Monthly meeting he may be asked to see what land in the neighbourhood Convenient for housing the labour of the factory is available and arrange for acquiring it or taking it from the Municipality. The question of funds will not present any difficulty as the Factory has accumulated enough reserve from which it can meet this outlay. The Dir may also be asked to get prepared a plan well designed, on up to date lines for a factory for making soaps and other articles. Plans submitted

17-8-31

No 65 dt 18-8-31.

No. 65 dt 21-8-31.

Returned, with compliments.

2. 52 Such cases have come up frequently from the Industries and Agricultural Departments. They would probably prefer to carry out all such works by themselves than by the P.W.D. I would suggest that instead of making exceptions like this every time, the Civil Departments be authorised to carry out works up to a certain limit themselves, those above the limits by the Technical Department of Government.

53 In this connection I might refer to codal rules in the case of

NOTE—Contn. Sheet

WD 02553—50,000—GPB—8-7-30.

14

File No. of 193 | General and Revenue Secretariat

Electrical works. All works whether of original character or repairs are enjoined to be carried out through the Electrical Department. When such a drastic restrictions is imposed even on the P.W.D., in the case of Electrical works, there seems no justification for a departure from the Codal rules in carrying out civil engineering works for other Departments. The chief ground on which such requests are put forward is that the Department concerned will be able to carry out more quickly than the P.W.D.

I do not see how they would be able to do this except by not following the procedure adopted in such cases, such as, calling for tenders and carrying out work by contract. If this is to be deviated from, the P.W.D. will be able to carry out suits as quickly if not more and better supervision will be ensured. The raw graduate from the College whom the Industrial Chemist has employed cannot be expected to exercise as good a supervision as the experienced officers of the Department.

In the present case as the Director of Industries says that he has already authorised the Industrial Chemist to proceed with the work approval sought for may be given.

I would only suggest that definite rules may be framed for future guidance.

M. Rangaiya
21/8/31

Chief Engineer of Mysore.

Bangalore,
August 1931.

Serial No.

56 In the present case, as the Director has charge, instructs the Industrial Chemist to have the work carried out under departmental supervision & as the Industrial Chemist has already invited tenders by advertisement in the Gazette, his action may be approved.

57 The Chief Engineer thinks that there will be any use employing a new Engineering graduate for supervising the work. This part of the proposal would therefore have to be negatived. The work may be supervised by the Supdt of Industries, Bangalore, or by one of the other Technical men attached to the department, like Mr Chandrasekharaiya who was in charge of the Construction of the new Porcelain factory.

58 In future it may be directed that all repair & new construction work costing Rs 5000 or more shall be carried out through the Agency of the P.W. Dept.

Yours &c
M.V.

TYPING SECTION 31 AUG. 1931 GENL. & REV. SECTT.

GEN. & REV. SECRETARIAT 14 SEP 1931 DEVELOPMENT BRANCH

General and Revenue Secretariat | I&C File No. 164 of 1930.

Serial No.	
13	From the Dir of I&C. No D2-317/30-31 dy 12.11.31 States that the Industrial Chemist has applied for sanction to provide for extra accommodation to the Soap Factory at a total cost of Rs 11,250, and recommends that three of the items proposed costing Rs 10000/- may be sanctioned, the work being done departmentally, & the cost being met from the General Reserve of the Soap Factory 64 submitted for orders. The Dir. states that the supervision work will be entrusted to one of the Senior mechanics, ~~on pay of Rs 12 p.m.~~, but nothing is now stated about the monetary limit of works which may be entrusted to the Dept, above which the work should be done by the P.W.D. The estimated cost of the work now proposed to be done departmentally is Rs 10000. The only ground on which the work is proposed to be executed by the Department is that the delay incidental to entrusting the work to the P.W.D will be avoided. In this connection attention is respectfully invited to para 2 of the Chief Engineer's CO 21.8.31 above and the 2nd Member's order dated 26.8.31.

NOTE – Contn. Sheet

WD 02553—50,000—GPB—8-7 30

So long as the monetary limit has not been definitely fixed there appears to be no valid reason for ~~the work~~ this additional work costing Rs 10000 being ~~worked out~~ executed by the non. technical dept further the detailed estimates for items nos 1, 3 & 5 are not furnished ~~or by white lumpsum estimates~~ While lumpsum amounts of Rs 4500, 4500 and Rs 1000 are mentioned and it is not clear if the tenders to be called for by the Industrial Chemist will be for these lumpsum amount or for quantities of work to be specified in the detailed estimates.

KO
19.11.31

65 No detailed Estimates have been prepared. General Sanction may perhaps be accorded to the execution of the building at a total Cost of Rs 10,000 subject to detailed Estimates being submitted for his approval of Govt. The Cost is to be debited to Stock Factory Rester.

66 The detailed Estimates may be got prepared by in consultation with the Public Works Dept, who may also be entrusted with the execution of the works.

(1st increase)

94 We may Consider this in the Meeting with the Dir to be held ~~to days~~ tomorrow - The present location of Soap Factory is not Satisfactory and is it right to go on putting up more Structures at the present place? What is the additional work to be taken up for which the need & nature suggested is necessary and has the undertaking of that work been approved

MK
11/2/32
MK
10.2.32

General and Revenue Secretariat | 18. File No. 164 of 193 0

Serial No.

95

The Detailed estimate may be obtained and sent to Fin. Dept for Scrutiny.

96 What is proposed is a Structure Costing Rs 9585 — the Dir now prefers to have a tiled instead of Zinc roof — and this extension is necessary for the Manufacture on a Commercial Scale of Brilliantine and boot polish Vanishing Cream and Shaving Stick. These products have proved popular and we should make them now on a large scale for Sale. The Structure proposed may therefore be Sanctioned.

97 The question was discussed some time ago Whether the Soap Factory might not be moved to a more Convenient place — A new building will Cost a large Sum and it does not appear to be desirable to undertake it now. Meantime small extensions required for the expanding work of the Factory may be allowed where it is now located.

CONFIDENTIAL

GEN. SEC. 4087, 20 NOV. 1930, VARIATY, DEVELOPMENT BRANCH.

My dear Sir,

With reference to the proposal to abolish Sandalwood Distilla-tion in Bangalore and concentrate work in the Mysore Sandalwood Oil Factory, I beg to propose that the building in which the Sandalwood Oil Factory, Bangalore, is located, may be handed over to the Department for transferring the Government Soap Factory there. The Government Soap Factory is at present located in a building behind the offices of the Executive Engineer, Public Works Department. As you are aware, the factory was started on an experimental scale and the location of the factory in its present premises for such a purpose was not inconvenient. In view of the rapid expansion of work in the factory, especially during the last year, the accommodation at present available being total-ly insufficient, a number of temporary platforms are being erect-ed to instal additional machinery since ordered. These platforms cannot form a permanent feature of the Factory as they are inconvenient and enhance the risk to which the workers are subjected.

The effluent coming from soap pans is discharged into the drain passing along the compound of the Electrical Department. Complaints have been received from this Department that the effluent is foul-smelling and that arrangements should be made by the factory for its suitable disposal. The situation of the factory being in a congested area, with Government buildings on all sides and a private building behind, it is not possible to make suitable arrangements for the disposal of the refuse if the factory should be further developed.

The total sales of soap last year amounted to Rs. 2,57,36[illegible]

I have discussed the matter with the Director and also with the Dewan. I have discussed with the Chemist also the possibility of using the existing soap factory building. The Dewan has promised to see it and let me have his views. He also feels that there may not be sufficient space for storing the sandalwood before it is dried. This difficulty may be overcome. Permission to be given to work not further delaying on the lines contained in the letter which are in accordance with my suggestions and proposals made personally to Council on 6.11.30. The chief Secy and the chief Engineer may be asked to inspect the premises. See if some accommodation for Soap Factory can not be found close to the present premises. 15.11.30

18/11/30

The sales during the present year have far exceeded this figure and amount, on an average, to about a Lakh of -- Rupees per quarter. In view of the prevailing Swadeshi movement, I have no doubt that it is quite possible to - sell, in India, half a Lakh of Rupees worth of soaps a - month within the next two years if the factory is located in a suitable building with facilities for storing r a w materials and finished soaps. Even if the Sandalwood Oil Factory building should not be available, I would strong -ly recommend that a new building should be erected for the Soap Factory. Within the last three years, the Factory has earned sufficient profits to defray the expenditure required for a suitable building and thanks to the - Government Order No. D. 6984-5/I & C 242-27-1 dated the 5th Jany. 1928 this amount is available as "General Reserve" of the Factory. The total available reserve at the end of December 1929 was Rs 67,691/-. The profits of the Factory for the half-year ending June 1930 amounted to Rs 32,732/- The total available reserve, therefore, at the credit of the Factory at the end of June 1930 was Rs 1,00,423/-. A sum of Rs 5,500/- is ordered to be met out of this reserve for the installation of a plant for the manufacture of - Turkey Red Oil. The net amount available out of the reserve at the credit of the factory is about Rs 95,000/-. I have no doubt that by the end of December 1930 this will increase to Rs 1,40,000/-.

I beg to propose, therefore, that the Sandalwood Oil Factory building may be transferred to the Government Soap Factory, if necessary, for a valuation, to be fixed by the Chief Engineer. The cost of the building may be adjusted in three instalments. I make this suggestion in view of the fact that the transfer of the factory to a new building will involve wholesale changes in the plant. The

The present plant is very old and if it is removed, a large part of it is likely to become useless. It is further desirable that upto-date machinery should be installed. I estimate that the total cost of the -- plant in the new factory will be about half a lakh of rupees.

I am of opinion, that the building in which the Soap Factory is located, may well be used as a Sandal -koti. There is plenty of space available here and the situation would seem to be ideal to prevent theft of Sandalwood. The Chief Conservator of Forests may be invited to visit the building and examine the possi -bility of adapting it for use as a Koti.

I request you to give your sympathetic considera- tion to the proposal contained in this letter and ob- tain the early orders of Government sanctioning the - transfer of the Government Soap Factory from its pre- sent premises to the building in which the Government Sandalwood Oil Factory is now located.

Yours sincerely,

C Ramagamalna Rawsahib

Rajakaryapravina
P. G. D'Souza, Esq., B.A., B.L.,
Third Member of Council,
Bangalore, Camp - Mysore.

USC)

Extract from the Third Member of Council's Minute dated 11th December 1930. D. No.4779. (ಸಂ ೨೮೨೮೩)

Utilization of the buildings of the Sandal-oil-factory in Bangalore.

The Chief Conservator of Forests was consulted in regard to the shifting of the Koti to the Soap Factory and giving the buildings of the Sandal-Oil-Factory for a new soap factory as expansion of the Soap Factory is urgently required as it is not able to cope with the demand.

Though there is ample space for storing sandalwood in the existing Soap Factory buildings, after it is dressed the Chief Conservator of Forests says that there is not sufficient space for storing the unprepared sandalwood and the buildings are not suited for keeping sandalwood. As the Soap Factory is situated close to one of the most important public squares with considerable traffic, it may not be desirable to have the sandalwood Koti there. In order to find out if it was not possible to carry on the expansion of the Soap Factory in the present place, I inspected the Soap Factory with the Director of Industries and Commerce, the Industrial Chemist and also the Chief Secretary. The Chief Engineer is agreeable to make the adjoining vacant space available to the Soap Factory so that the new buildings required for Stores may be constructed there and the additional plant required - installed close to the existing buildings. I have asked the Dir. of Industries & Commerce to prepare a suitable plan and submit it early.

The Soap Factory may be enlarged in its present place. The Sandalwood Oil Factory in Bangalore may be made available for storing sandalwood for the present.

R3
1/573
4/5

SIR,

With reference to your letter No. D.9724/I&C 164-30-5 dated the 21st April 1931 requesting me to consider the desirability of purchasing the site and building originally belonging to Messrs. Petrie Hay & Sons, I have the honor to state that I find on enquiry that this site and building was purchased by the Bank of Mysore for a sum round about Rs.40,000/-. I understand that the Bank require between Rs.40,000/- to Rs.50,000/- for it. The buildings which consist mainly of a few old sheds of corrugated iron roofing are useless and have to be pulled down as they are in a dilapidated condition. The site is valuable as it is in the immediate vicinity of the City Railway station. The site is now covered with a lot of debris and it will require another Rs.4,000/- to Rs.5,000/- before the plot is levelled and the site made suitable for erecting a building for the Soap Factory. I am of opinion that it is not desirable to spend all this money for this purpose.

Government have sanctioned the construction of the Porcelain Factory on the open ground behind the Jewel Filters. There is plenty of open site available there and the entire site has been handed over to the Department of Industries and Commerce. I am strongly of opinion that in wiew of the fact that facilities for water-supply and supply of Electric power are available here and the site already belongs to the Department of Industries & Commerce,

a building for the Soap Factory may be constructed there. The Porcelain Factory is already under erection and the Laboratory attached to the Soap Factory has been shifted to the Sandalwood Oil Factory closeby. The Indian Institute of Science is situated near the site.

I request the formal sanction of Government for the submission of detailed plans and estimates for the erection of a Building for the Soap Factory at the site referred to in this letter.

I have the honour to be,
Sir,
Your most obedient servant,

V Ramaswamy Rao Sahib

Secretary to the Government of Mysore,
Development Departments,
Bangalore.

SIR,

Expansion of Government Soap Factory - immediate Requirements.

*****

With reference to your letter No.D.10860/I&C.164-30-7 dated 17-6-1931, I have the honour to state that necessary plan and estimate for the construction of a new building near the Porcelain Factory for locating the Soap Factory will be got prepared and submitted early. In the meanwhile, the Industrial Chemist, Government Soap Factory, reports that before the new building is erected it is necessary to buy a soap pan and other accessories of the estimated value of Rs7,000/- and that certain minor alterations should be made in the existing building at a total cost of Rs 5,000/-. This is absolutely necessary. The aggregate sale of soap during the year 1930-31 has reached the figure of Rs 4,60,000/- as against Rs2,87,376 in the previous year. The trend of business seems to indicate that even higher sales may be effected during 1931-32. I request that the temporary additions and extensions proposed by the Industrial Chemist to meet the situation may be approved. The total amount involved i.e., Rs12,000/- may be met from the General Reserve at the credit of the Government Soap Factory which amounts to about Rupees Two and half lakhs including the profits for the year ended 30-6-1931.

The favour of very early orders of Government in the

DIRECTOR.

mas

BV3

GOVERNMENT SOAP FACTORY, BANGALORE.

17th June 1931.

Immediate.

The Director of Industries &
Commerce in Mysore, Bangalore.

Sir,

Immediate expansion of the Factory.

I have the honour to inform you that the total value of sales of soaps for 11½ months ending June 15, 1931 exceeds Rs.4,42,000/- and it will be at least Rs.4,50,000/- by June 30th. The sales have been much more than what we anticipated and if business continues to expand steadily, even on a moderate scale, we shall not be in a position to supply soap to all the markets in India. I am rather hopeful that business will expand if we continue to advertise our products on an intensive scale and also in view of the fact that we have recently appointed different agents to look after our interests. It will be a very sorry and depressing outlook if we cannot work for a steady and continuous expansion of business, particularly when the time seems to be opportune. Further, when the Factory requested Messrs. Ramjanally Ebra-
him

Ebrahim & Co. to execute the terms of the agreement on a stamp-paper, they have in their turn asked us to guarantee them the delivery of all soaps they indent for. Calculating that the demand for toilet soaps like Sandal, Gulab, etc. continues to be the same it will be impossible for us to supply all the indents for Turkish Bath Soap and Washing soap, if we are not going to put up an extra pan immediately. As a matter of fact, last year on account of the demand for more costly varieties of toilet soaps we practically withdrew the Turkish Bath Soaps from the market altogether for a period of nearly 12 months and during the last one or two months we again started the manufacture of the same and now I am in an awkward predicament since the demand for Turkish Bath Soap is increasing and I am not in a position to manufacture the same to meet all the demands. Further, the toilet soap base is the same for our sandal soap and Turkish Bath Soap and the weight of each tablet of soap is also identical. The process of milling, stamping, and packing will also be identical, the only difference between the two being that the sandal soap carries a richer and costlier perfume, whereas the Turkish Bath Soap will have only a very cheap scent added on at to it. The price of Turkish Bath Soap is Rs.1-8-0 per dozen tablets and the price of sandal soap is Rs.3-8-0 per dozen tablets. We are not likely to make more than about 2 to 3 annas profit per dozen tablets

of Turkish Bath Soap whereas we may make even as much as one rupee profit per dozen tablets of sandal soap. Hence, unless the pan capacity is increased I shall be compelled to stop manufacturing the cheaper brands of soap for which also a keen demand exists. Moreover the agents are unanimously of opinion that if business should expand in all directions, the factory should arrange to supply cheaper brands of soap also. Another factor that will have to be kept in mind is that for our costlier varieties of toilet soaps the markets are reaching a saturation point for our particular brands of soap, and therefore any extension of our soap factory's business will have to be looked for by marketing other brands of soap.

Having all the factors mentioned above in view it is absolutely necessary for the factory to cable for another soap pan and instal it immediately at the present site, making the alterations in buildings etc. to as small an extent as possible. There is the bigger proposition of shifting the factory to Malleswaram and build an up-to-date factory. Even though this scheme is sanctioned, it will take at least 12 to 18 months before the factory can be got ready and the new plant installed and got into working order. During this interval of time we have no choice left except to make another smaller addition to our present factory, as otherwise, we stand to lose business and also good profits.

I should like to be permitted to reiterate once again that if business continues to expand as it is doing, the present factory will not be able to supply the demands. Further, the soap pans themselves are old and are giving us trouble and if there should be a break-down, we shall lose all our markets which have been captured by us with great trouble and expense. One of the soap pans is more than 12 years old and the other soap pan is more than 8 years old. It will be exceedingly difficult for the factory to fulfill the budget expectations for 1931-32 if this modest proposal of mine is not sanctioned.

Here are the details of the proposed extensions:-

	Rs.
1) Purchase of a 5-ton soap pan at a cost of £100/- plus 25% for freight, carriage, insurance, etc.	1,666/-
2) Extension of the platform.	1,000/-
3) Erection of the soap pan and providing it with steam and water connections. ..	500/-
4) 12 soap frames and 12 soap-frame-trolleys. ..	2,500/-
5) One colour mixing equipment.	500/-
6) Installation of the lathe and drilling machine. ..	750/-
Total	Rs.6,916/-
	Say Rs.7,000/-.

Alterations in buildings:-

1) Altering the present Assistant Superintendent's room and essential oils stores

	Rs.
stores to provide extra accommodation for new soap frames, etc.	1,500
2) Providing the existing store room with terraced roofing for the storage of essential oils and also to serve as the office room of the Assistant Superintendent; and making use of the roofing materials to construct another corresponding room making use of the existing partition walls etc.	3,000
3) Repairs to flooring and other minor alterations in the buildings and also providing electric lights to the new rooms.	500
Total	Rs.5,000

My present proposals therefore require the immediate sanction of a sum of Rs.12,000/- which is not much considering the importance and the urgency of the work. I request you to kindly sanction this proposal irrespective of our bigger scheme to shift the factory to Malleswaram. I request your immediate orders on the subject.

I have the honour to be,
Sir,
Your most obedient servant,

Industrial Chemist &
Chemical Engineer.

SIR,

Urgent
12/8/31
Manufacture for
topes

With reference to your letter No.D.400-401/I&C 164-30-10 dated 17-7-1931, sanctioning the purchase of certain machinery at a cost of Rs.7000/- for use in the Government Soap Factory and also the extension of the existing building at a cost of Rs.5000/-, I have the honor to submit herewith for the information of Government a copy of letter No.566 dated 25-7-1931 received from the Industrial Chemist requesting permission to have the work connected with the extension and alterations of the building carried out under his own supervision for the reasons mentioned. He also proposes to employ temporarily an Engineering Graduate to help him in the work. In connection with the detailed estimates and plans called for in your letter No.D.10860/I&C 164-30-7 dated 17-6-1931 for the construction of a new building in Malleswaram, I have permitted the Industrial Chemist to employ the services of an Engineering Graduate on a monthly wages of Rs.50/- per mensem and the Industrial Chemist proposes that the services of the same Engineering Graduate with an extra remuneration of Rs.10/- per mensem or Rs.60/- in all, may be utilized. As it is quite necessary to go on with the work as expeditiously as possible, I request you to kindly obtain the approval of Government for the work being taken up departmentally under the supervision of the Industrial Chemist and also the employment of an Engineering Graduate temporarily for about 4 months to assit the Industrial Chemist in the work. The Industrial Chemist has been instructed by me to adhere to the usual formalities

(27

formalities of calling for tenders from contractors to carry out the work. As the work has to be carried out very urgently, I have asked the Industrial Chemist to go ahead with it and I request the approval of Government for my action.

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR.

KS)4.

GOVERNMENT SOAP FACTORY, BANGALORE.

25th July 1931.

The Director of Industries &
Commerce in Mysore, Bangalore.

Sir,

Ref: G.O. No.400-401/I&C.164-30 dated 17-7-31 sanctioning a sum of Rs.12,000/- for expansion of the Govt. Soap Factory.

I have the honour to request you to kindly permit me to have the alterations to the buildings carried out at a cost of Rs.5,000/- under my own control. I shall get the necessary materials and workmen and with the help of an engineering graduate see that everything is done efficiently and economically. It will also save a lot of time which is an important factor. I shall also take the responsibility on my shoulders to get through the work.

The order for the soap pan will be placed either in Germany or in England as soon as I receive replies to cables which will be sent today. The order for soap frames etc. will be placed in Bangalore depending on the quotations received from competing firms including the

Central Industrial Workshop. I request your early orders on this letter.

I have the honour to be,
Sir,
Your most obedient servant,

Industrial Chemist &
Chemical Engineer.

Bangalore, (India.)

To

B. T. Kesaviengar, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Extra accommodation required in the Government Soap Factory.

Referring to correspondence ending with your letter No. D. 1400/I & C 164-30-12 dated the 31st Augt./2nd Septr. 1931 re: certain extensions and alterations carried out in the Factory, I have the honor to state that the Industrial Chemist, has applied for sanction to provide for extra accommodation required at a total cost of Rs 11,250/-. I enclose for the information of Government, a copy of his letter No. 2395 dated the 3rd Nov. 1931 in which the details for the extra accommodation needed are given. I inspected the factory on the 2nd Novr. 1931 with a view to guaging the necessity and urgency of the work proposed by the Industrial Chemist and I think that items 1, 3 and 5 viz., 1) New Store room, 3) Cosmetics room and 5) Electric Lights gas lines., etc., estimated to cost Rs 10,000/- are necessary in view of the expansion of the activities of the factory in recent years. I request that these works may be kindly sanctioned by Government and ordered to be taken up departmentally to avoid the delay incidental to entrusting of the work to the Public Works Department. The Industrial Chemist will be asked to call for and submit tenders from Contractors before the work is begun and the works will be carried out under the supervision of both the Industrial Chemist and the Superintendent of Industries, Bangalore Division, by deputing, if necessary, one of the senior mechanics attached to the Department.

The amount involved may be met from the General Reserve of the Government Soap Factory.

I shall submit my proposals separately regarding the monetary limit of works that may be entrusted to the Departmental agency and above which they should be done by the Public Works Department, called for in your letter under advertance.

I have the honour to be,
Sir,
Your most obedient servant,

N. Rama Rao
Director.

USC)4

GOVERNMENT SOAP FACTORY, BANGALORE

Immediate.

3rd November 1931.

The Director of Industries &
Commerce in Mysore, Bangalore.

Sir,

Extra accommodation required in the Government Soap Factory.

I have the honour to inform you that some extra accommodation is very urgently required by me and it is easy to put up the buildings right inside the factory premises.

(1) Storage room for finished products: The finished soap is kept in any odd corner in the factory where room is available. This would have been alright when we were dealing with small outputs. The conditions have changed entirely and we cannot lose any more time without a special store room where proper watch can be kept. The sale value of the finished stock exceeds one lakh of rupees at present. In spite of the vigilence of all the senior employees of the factory, it is being noticed that there are small pilferages of soap and till now nobody has been caught. It is a rule of the factory that no workman can leave the works without being searched. Counting of stock every day is impossible and when it is remembered that the factory prepares six to nine thousand tablets of soap per day, countin them frequently is not at all possible. When once the soap is manufactured it is wrapped and put into cartons and wooden cases. These latter cannot be nailed then and there. The wood shrinks after some time and since the contents of each case will have to be checked before issue, when trying to open out a nailed box, the wood splits and there are also other drawbacks. It is when these cases are checked before despatch from the factory, that some shortages have been noticed and it is not at all possible to say when the soap was pilfered and who is the culprit. The pilferages noticed till now are very

small and not worth reparting formally. But it cannot go on unnoticed for long and proper Bandobust is necessary. Therefore the best thing to do will be to put all finished products in one room and make somebody responsible for its custody.

At present we have an enclosed pavement used for drying soap in the sun. It measures approximately 46' x 35'6". This space can be used for building a store-room for finished products. When this is done I shall have to put up a paving of cudappa slabs in front of Assistant Superintendent's office for drying soap chips.

Last year we built a similar room, 46' x 35.5' and it cost us Rs.4,500/-. I request the sanction of this amount and your approval also to start work without loss of time. This proposed room is marked "A" in the plan and enclosed in green ink.

(2) Extension of tallow shed: We have ordered 100 tons of tallow and this will be delivered at the rate of 20 tons per month and it may arrive sometimes quicker than we use it up. There is space for this extension. The room will measure 40' x 15'. A "lean-to" roof will be put up against an existing wall. I think I shall be able to get enough sized stones for foundation and bricks for walls by dismantling some obstructive and unnecessary compound walls. I have only to pay for labour, roofing, windows, doors and flooring. I request a sanction of Rs.750/- for this and also to start work with the existing materials on hand. I have marked this extension "B" in the plan.

(3) New room for manufacturing boot plishes etc.- Our experiments for manufacturing (a) Vanishing Cream, (b) Boot polishes, (c) a "Gloy" substitute, (d) an iodine ointment, (e) Sandal shaving sticks have been successful. Raw materials for these have in most cases been ordered and containers have been ordered for vanishing cream and boot polishes. Our sample batches were readily sold out during the last exhibition and we were awarded a gold medal for these products. Some of the equipment has arrived in Madras and they will have to be installed. I want a room at least 30' x 50' and this ought to be terraced. The room will have to have gas, water, and electric connections. I can do all this by extending the old gas house. This proposed extension is marked "C" in the plan. Taking approximately Rs.3/- per square foot of area built, the amount required will come to Rs.4,500/-. I request your sanction for this and your permission to start work.

(4) Repairs to Carpenter's shed: This has fallen into a bad condition and it is just possible that a thief may get in through the neighbouring compound, though with difficulty. We also store our duty-free salt in the same place. The wire-mesh-overhead-screen covering an open space by the side of the Carpenter's shed has become very insecure and apart from thieves, monkeys will get in and do a lot of damage. I want Rs.500/- for repairs in this room.

(5) Electric lights will have to be provided in two of the rooms, namely in "A" and "C". Four industrial lights will be required in the store-room; eight drop lights and four wall plugs in the cosmetics preparation room; the latter will have to have water and gas lines laid out and four or five work tables provided. For all these items I require Rs.1,000/-.

SUMMARY.

	Rs.
(1) New Store-room 46' x 35'6".	4,500/-
(2) Extension of tallow shed - 40' x 15'	750/-
(3) Cosmetics room 50' x 30'.	4,500/-
(4) Repairs to carpenter's shed.	500/-
(5) Electric lights, gas lines, water lines, work benches, etc.	1,000/-
Total (sanction required).	11,250/-

This capital expenditure may be met out of factory's reserves.

I request the favour of an immediate inspection by the Director and also very early orders on this representation.

I have the honour to be,
Sir,
Your most obedient servant,

Industrial Chemist &
Chemical Engineer.

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 2nd January, *193*2.

FROM

R. Ananthasubramanyam, Esq., B.A., B.L.,
Director of Industries and Commerce in Mysore,
(in charge) *Bangalore, (India.)*

DEVELOPMENT SECRETARIAT 4 JAN 1932

GEN. & REV. SECRETARIAT

B.T. Kesaviengar, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

With reference to Government Order No.D.400-401/I&C 164-30 dated 17-7-1931 sanctioning the purchase of a soap pan and other accessories for the Government Soap Factory and the effecting of certain minor alterations to the building at a total cost of Rs.12,000/-, I have the honour to state that the Industrial Chemist reports to me that while actually executing the work it has been found necessary to make certain readjustments with a view to carry on the work without disturbance to the normal work of the factory. I submit herewith for the information of Government a copy of the letter No.3535 dated 21-12-31 along with a copy of the statement of re-allocation of the allotments received from the Industrial Chemist, Government Soap Factory, Bangalore. Among the alterations of some consequence proposed by him are (1) the building by the side of the existing store room, a terraced room instead of converting the tiled roofing of the existing store room into a terraced one as had originally been contemplated to avoid duplication of work and (2) the building of a verandah in front of the office buildings at a cost of Rs-960-14-0 being the savings to be effected as a result of the revision proposed. The alterations proposed are most suited to the needs of the factory and do not involve any extra cost. I request that the proposals of the Industrial Chemist may therefore be kindly approved by Government and their sanction also kindly accorded for utilising the savings of Rs.960-14-0 for building the verandah in front of the office buildings.

The favour of early orders is requested in the matter to enable the bills for expenditure incurred on the revised basis being admitted by the Comptroller in audit.

I have the honour to be,
Sir,
Your most obedient servant,

R. Ananthasubramanyam

Director-in-charge.

KS)S.

GOVERNMENT SOAP FACTORY, BANGALORE

21st December 31.

The Director of Industries & Commerce
in Mysore, Bangalore.

Sir,

Ref: Government Order No.D.400-401/I&C.
164-30 dated 17-7-1931.

I have the honour to report as follows:-
The Government order gave sanction for the following items of expenditure of a capital nature.-

1.	One 5-ton pan. ..	Rs.1,666/-	
2.	Extension of the platform.	1,000/-	
3.	Erection of the soap pan etc.	500/-	
4.	12 soap frames and 12 soap frame trolleys. ..	2,500/-	
5.	One colour mixing equipment.	500/-	
6.	Installation ~~of the~~ of the lathe and drilling machine...	750/-	
	Total	6,916/-	
	Say		Rs.7,000
7.	Altering the present Assistant Superintendent's room and essential oils stores etc.	1,500/-	
8.	Terracing the existing store room and constructing another room with those roofing materials.	3,000/-	
9.	Repairs to flooring, providing electric lights, etc.	500/-	
	Total		Rs.5,000
			Rs.12,000

While actually executing the work it became necessary to reallocate the funds with a view to effect the expansion of the factory with the least amount of disturbance to the normal work of the factory and also to permit of the utilization of some windows, etc. that had been left on our hands out of the old weaving factory shed materials, which the factory had purchased. One of the items was to alter the Mangalore tiled roofing of the existing store room to one of terrace with jack arches and re-build an identical room with Mangalore tiles. It seemed to me that removing the Mangalore tiles from an existing building and putting back the same roof on a new building was unnecessary duplication of work and hence I decided to leave the existing store room as it is and build by the side of it a terraced room which will be utilized by us for our altered needs. It had been suggested that the new rooms should be handed over to Mr. M.S. Krishna Rao for storing essential oils and also for holding his own office. This idea had to be modified because it is absolutely necessary that Mr. Krishna Rao should have direct access to the factory from his own office. This would not have been possible in the arrangements originally proposed and the only thing I could do was to shift my present office to the new building and make available these rooms for essential oil storage and also for the Assistant Superintendent's office.

These modifications required a reallocation of the grants made in the above Government order and I am now applying to you to kindly sanction these reallocations. One portion of the work, namely, the extension of the platform to permit of the erection of the new pan and consequential rearrangements of the present Assistant Superintendent's office have not yet been taken up and cannot be done until Mr. M.S. Krishna Rao shifts his office. Therefore, even though the re-allocation is made, I beg to report that one portion of the work remains yet to be done.

I enclose herewith a statement showing the reallocation. The balance of Rs.960-14-0 will be utilised for providing a veranda in front of the office buildings, which is quite necessary, as the building is facing west.

I request you to kindly countersign all the contractor's bills on this basis and accord your formal sanction for the proposed reallocation.

I have the honour to be,
Sir,
Your most obedient servant,

SGS:VRR.

Industrial Chemist &
Chemical Engineer

Government Soap Factory, Bangalore.

Statement showing the original allocation and the reallocation of the grant of Rs.12,000/- sanctioned in Government Order No.D.400-401/I&C.164-30 dated 17-7-1931.

To

B.T. KESAVIENGAR, Esq., B.A.,
Secretary to Government of Mysore,
Development Department,
Bangalore.

SIR,

Subject:- Additional accommodation required in Government Soap Factory.

In continuation of my letter of the same No. dated 12th November 1931 on the above subject, I have the honour to enclose herein the plan and detailed estimates submitted by the Industrial Chemist in respect of the buildings for the manufacture of Boot polish and for Stores proposed to be erected. The Industrial Chemist had worked up alternative estimates for the buildings with (1) zinc-sheet roofing and (2) tiled roofing. The total cost with a tiled roofing would be Rs.9,585 according to the estimates that had been submitted by the Industrial Chemist whereas the cost will be Rs.7,660 with a zinc-sheet roofing as per estimates now enclosed. I am of opinion that it is advisable to restrict the outlay on the building as much as possible and that zinc-sheet roofing would quite serve our purpose. I have informed the Industrial Chemist accordingly. I request early sanction of Government for the estimate to enable the work being taken on hand without delay.

The plan may be kindly caused to be returned when done with.

I have the honour to be,
Sir,
Your most obedient servant,

Director in charge

Bangalore, (India.)

DEVELOPMENT BR. 12. FEB. 1932

B.T. Kesaviengar, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Government Soap Factory - Further expansion.

I have the honour to state that I have in my letter No.D2-317/30-31 dated 3-11-1931 submitted proposals for the extra accommodation required in the Factory at a cost of Rs.10,000/- and in my letter of the same no. dated 12-1-1932 I have submitted detailed estimates bringing down the outlay to be incurred on the several works to Rs.7,660/-. In this connection I beg to state that the Industrial Chemist represented to me that the extension of the existing tallow shed at a cost of Rs.750/- was absolutely necessary, as it lacked the necessary accomodation for storing 100 tons of tallow recently ordered for through the Secretary, Stores Purchase Committee and which is going to be despatched by the suppliers in three batches as per terms of the contract. In view of the urgency of providing necessary accomodation for storing this huge stock of tallow, I permitted the Industrial Chemist to have the existing shed extended as proposed by him at a cost of Rs .750/-. This work has since been completed and the bill of the contractor through whom the work was got executed is pending payment. I request the approval of Government for my action and their sanction to [illegible] amount from out of the general reserve of the Government Soap Factory.

I also request the favour of very early sanction of the proposals submitted in correspondence ending with my letter dated 12-1-1932 for

for taking up the work at a cost of Rs.7,660/- as per estimates submitted.

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read:--

Letter No.D 2-317/30 dated 12th January 1932 from the Director of Industries and Commerce forwarding for sanction plans and abstract estimates for Rs.7660 in respect of the buildings for the manufacture of boot polish and for stores in the Government Soap Factory premises at Bangalore.

Letter No.D 2-317/30 dated 12th February 1932 from the same officer stating that in view of the urgent necessity for the extension of the existing tallow shed at the ~~Sepal~~ Soap Factory, he has got the work executed at a cost Rs.750/- and requesting approval of his action.

Order No. I 4254-8/ Soap 166-30-15

Dated, Bangalore, the 25th February 1932.

The Director has since represented that it is proposed to have tiled roof for the structures referred to in his letter dated 12th January 1932 read above instead of Zinc roof as originally estimated and wants the estimate to be revised to Rs.9585/-. In the circumstances represented by the Director, sanction is accorded to the construction of buildings for the stores and the -- manufacture of boot polish and other articles and for the extension of the tallow shed at a total cost of Rs.9585 + Rs.750 or -- Rs.10,335/- the amount being met from this year's profits of the Government Soap Factory. For purposes of calculation of the total capital of the factory, the cost of the new structure will be taken into account.

The Director is requested to submit detailed estimate for

sanction

Bangalore.

SIR,

Government Soap Factory - Expenditure.

With reference to Government Order No.D.3577-8/I&C.164-30-16 dated 13/15th January 1932 sanctioning the re-allocation of the grant of Rs.12,000 sanctioned for the purchase of a soap pan and other accessories and the execution of certain alterations in the buildings, except item 9 - construction of a veranda in front of the new Office Buildings at a cost of Rs.960-14-0, I have the honour to state that the Industrial Chemist, Government Soap Factory, reports that the construction of this veranda is absolutely necessary as direct sunlight will be streaming into the new offices on account of its position and as such the omission of this item will seriously interfere with the amount of work done in the offices in the afternoon. He also reports that as the windows and doors of the office face south-west, rain will be falling directly on these windows and doors which fact will also cause some disturbance. I concur with the Industrial Chemist and request that the construction of the veranda at a cost of Rs.960-14-0 may also be kindly sanctioned by Government. I enclose for reference a sketch of the space proposed to be enclosed by constructing the veranda.

I have the honour to be,
Sir,
Your most obedient servant,

N Rama Rao

Director.

28/4/32

SIR,

With reference to Government Order No.D.4256-8/I&C. 164-30-19 dated 24th February 1932 sanctioning the putting up of new buildings ~~to~~ the premises of the Government Soap Factory at an approximate value of Rs.10,335/- and directing me that a detailed estimate should be submitted for sanction after scrutiny by the Chief Engineer, I have the honour to enclose herein an estimate and the plans prepared by this office and countersigned by the Executive Engineer, Bangalore Division. The total cost of the buildings as per this estimate amounts to Rs. 9,585.

In view of the fact that the work has to be completed before the end of June 1932 I had a tender notification published calling for tenders for the construction of these buildings and as a result of such notification 9 tenders have been received. The lowest amongst these tenders is for Rs.6,980-2-10 and the highest is for Rs.8,358-13-9. I have accepted the tender of Messrs. B.Papiah and G.Papiah who have undertaken to do the work for Rs. 6.980-2-10 and have issued instructions to the Industrial Chemist, Government Soap Factory, to put the work on hand obtaining an undertaking from the Contractors that they will complete the work before the end of June 1932.

I have to request that the action taken by me may be approved and permission be accorded to have the work executed by the Department

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 1st June 1932.

FROM

N. RAMA RAO, Esq., B.A., B.L.,
Director of Industries and Commerce in Mysore,
Bangalore, (India.)

DEVELOPMENT SECRETARY. 4. JUN. 1932

To

B. T. KESAVIENGAR, ESQ., B.A.,
Secretary to the Government of Mysore,
Development Department,
Bangalore.

SIR,

Expansion of the Government Soap Factory.

I have the honour to state that in accordance with instructions received by him, the Executive Engineer, Bangalore Division, has vacated the Central Shed belonging to the Public Works Department, for occupation by the Factory. Under the same instructions the whole of the premises in which the Central Shed is located has also been since placed at the disposal of the Soap Factory.

The Industrial Chemist reports that the above shed cannot be made use of by the Factory unless the central passage is paved with burnt stone slabs, the area to be covered being about 1500 sq.ft. Further, an entrance will have to be provided to the shed from inside the Factory and this necessitates some alterations in one of the existing store rooms of the Factory measuring 40ft by 12ft. The store room will be opened out at the places marked in the plan and a new door put up. An expanded metal frame is also proposed to be fixed for the semi-circular opening at a cost of Rs 25/-. These works are estimated to cost Rs 705/-. I enclose for the information of Government and kind return when done with, estimates and plan submitted by the Industrial Chemist. As it is desirable that the Soap Factory should occupy the building as early as possible, I have in anticipation of the formal sanction of Government approved the estimate and authorised the Industrial Chemist to go on with the work. I request the approval of Government for my action.

Sanction of Government may also be kindly accorded for meeting the entire expenditure from the current profits of the Government Soap Factory as in the case of the other expansions sanctioned to the Factory (Vide G. O. No. D. 4256-8/I & C 164-30-19 dated 24-2-32)

I have the honor to be,
Sir,
